

# Creating volumes

To create a new volume of managed storage, select the Virtual Datacenter, click the  button and complete the form:

?
Create volume
✕

Virtual Datacentre

Name \*

Description

Total size \*

Tier \*

Field	Description
Virtual Datacenter	The Virtual datacenter where the volume will be created
Name	The name of the volume
Description	A description of the volume
Total Size	The size of the volume
Tier	The Tier (service type) desired for the volume

The volume will then appear in the list of volumes, which also displays any volumes attached to Virtual Machines:

Virtual Appliances Network Volumes						
Name	Virtual datacentre	Virtual appliance	Virtual machine	Tier	Total Size	State
WEBStorage	VDC_Enterprise	Vapp_02	ABQ_d76e6419-bc0c-4b07-a...	NFS	1.00 GB	ATTACHED
wsus	VDC_Enterprise	Vapp_01	ABQ_30c674ce-0a24-48bc...	NFS	128.00 GB	ATTACHED
DBServer	VDC_Enterprise			NFS	1.00 GB	DETACHED
